d) Singles Matches

When the Captains lodge their orders of play they must provide a sealed envelope containing the name of one member of their Team.

In the time period ending 15 minutes prior to the starting time of the first match, if a player has to withdraw through illness or injury, that player will be deemed to be paired with the player in the opposing team's sealed envelope and this pairing's match will be deemed to be tied. Should this then require the re-pairing of a match, the player in the match impacted higher up the order of play will drop down to play the player in the other impacted match. Again, in the period ending 15 minutes prior to the starting time of the first match, if two players (one on each side) withdraw, then they are deemed to have been paired together (regardless of the names in the sealed envelopes) and to have tied their match and the two other players for the particular match will play each other.

In the time period from 15 minutes prior to the first match commencing until all matches have teed off, if one player withdraws prior to the start of her match and, subsequently, a player from the opposing team also withdraws prior to the start of her match due to injury or illness, the two injured players are deemed to have been paired together (halved match) and the other two non-injured players will be re-paired down the order of play as the final match. If only one withdrawal is made in the period commencing 15 minutes before play, that player's match will be forfeited.

If one Team has two (or more) players who have to withdraw, then the result is one match tied and that team loses the other match(es) by default.

Note: As soon as a Team Captain is made aware of a possible illness or injury to one of her players, she should notify David Wilson, the Championship Director, and the opposing Captain immediately of the injury or illness and of the possibility of either the envelope procedure or the 15 minute clause being implemented.
